Benefits and value:

- Delivered and commissioned on site with truck crane
- Running costs are economical at all temperatures
- Service provided by mobile technicians throughout UK & Ireland
- State of the art recording devices
- Attach the cold store to your building or loading bay
- Stainless steel and aluminium interiors which are easy to keep clean
- Spread the rental term over 3/5 years to aid weekly cash flow
- Cold stores are weatherproof meaning they can be sited outside
- Unlike extended warranties and some service contracts, there are no small print exemption clauses or unexpected bills to budget for, all fair wear and tear is covered by CRS.
- If you have purchased or rented from us in the past, CRS will upgrade your units efficiently.

How we can help your industry:

- Store our mini units on the pier or place them on your trawler
- High capacity refrigeration units with the ability to bring down temperature fast
- Reduce fresh fish waste by freezing it and selling it frozen cost effectively
- Customise the cold store to suit your production layout
- Join together with a group of fishermen and share the cost of keeping bait fresh or turning fresh fish into frozen if it can't be sold in time
- Set up a new fishing business with a ready made cold store and prep area
- Hard wearing units which can be made resistant from rust and secure to leave outside permanently and beside the sea
- The 60kW blast freezer will blast freeze 8000kg of fresh product from +5°C to -18°C in 24 hours.
